

Dermatology Update

4th October 2017

10:00am – 16:00pm

Loxley Building, University of Hull

Skin problems are one of the most commonly encountered areas in British general practice and can be as challenging to manage as they can be satisfying. This comprehensive one day course, suitable for GPs, nurse practitioners and other advanced practitioners working in primary care, led by local dermatology specialists, will advise and update on the most commonly encountered dermatological conditions. Using a mixture of presentation and case-based discussion it will increase knowledge and confidence for primary care clinicians in how to diagnose and manage the wide variety of skin complaints that present in general practice.

KEY BENEFITS

A chance to share and reflect on current dermatology practice.

Practical advice from local specialists.

Opportunity to discuss real world cases.

Advice on who and when to refer.

FEES

£140 GPs (£125 for RCGP member and HYMS Clinical Tutors)

£120 GP Registrars/Nurse practitioners

HYMS reserves the right to cancel short courses if the number of delegates is insufficient to run the course
