

REMEMBERING THE SCIENTIFIC CONTRIBUTIONS OF PROFESSOR MILES WHITTINGTON

**15 SEPTEMBER 2022
13:00 - 18:00
RON COOKE HUB,
UNIVERSITY OF YORK**

Miles Whittington sadly passed away in October 2021. This scientific symposium is an opportunity to reflect on his career and his contribution to neuroscience. Speakers include Roger Traub, IBM Research Centre, New York, USA; Nancy Kopell, William Fairfield Warren Distinguished Professor, Boston University, USA and Co-Director of the Centre for Computational Neuroscience and Neural Technology; Hannah Monyer, Professor of Neurobiology, University of Heidelberg, Germany.

The symposium will be followed by a buffet reception. Colleagues, students and friends welcome.
